

## Snowman Christmas Card

Tools and materials needed:

- Two sheets of construction paper, one white and the other any color
- Scissors
- Glue
- Felt tipped marker
- Small black buttons (optional)
- Googley eyes (optional)

1. Begin with one sheet of construction paper. Fold the paper in half to make the card base.

2. Trace some household items or draw free hand to create 3 different sized circles on the white sheet of paper.

3. Cut the circles out and arrange them on the paper from smallest to largest to make a snowman shape.

4. When you are happy with the arrangement, glue the circles in place.

5. Use a felt tipped marker to draw a hat, face, arms and buttons on the snowman.

Tip: If you would like to add more interest and personality to your card, use small black buttons and googley eyes and glue them on.

6. Add a personal message on the inside to complete the card.
