

Scary Green Witch Makeup Instructions

Makeup Supplies

- Green base makeup
- Light brown base makeup
- Facial sponge
- Dark red lipstick
- Black eye pencil
- Black mascara
- Purple face paint

Instructions

1. Soak a facial sponge in the green base makeup. Dab the makeup gently onto your face, concentrating it along your cheekbones, brow bone and chin.
2. Soak a facial sponge in light brown makeup. Gently dab it over the green to add some dimension. This will leave you with a slightly mottled look.
3. Create some deep wrinkles in your face with the black eye pencil. Draw a line extending down and outward from the inner corner of each eye. Draw a branch from each line to make an upside-down "Y" on each cheekbone.
4. Apply heavy black eyeliner to your upper and lower lids, extending the upper line out past the edge of the eyelid by approximately 1/2 inch.
5. Apply a coat of black mascara to your eyelashes to further darken your eyes.
6. Darken your eyebrows by drawing a thick black line over each one with the eyeliner.
7. Draw some small lines extending upward from the top of the eyebrows to give the impression of heavy, hairy brows.
8. Using purple face paint, draw some lines bracketing either side of the mouth from nose to chin.
9. Apply a coat of dark red lipstick.
10. Outline your lips in black.
11. Draw some black "wrinkles" around the lips with small lines radiating outward.
12. Finish by giving yourself a few black "moles" on your chin and nose.
