Instructions

1. Apply a thin layer of white foundation to your entire face.
2. Apply powder blue eyeshadow to your eyelids all the way up to your brows.
3. Line the bottom of your eyes with the plum shadow.
4. Apply the teal shadow. Begin at the inner corner of each upper eyelid. Pull it across the lid, continuing along the lash line and past the outer corners to create a "cat-eye" look.
5. Apply a thin line of liquid eyeliner all the way around your eyes.
6. Apply the blush to your cheeks.
7. Apply the lipstick, starting with white and adding pink on top. The white will show through various shades of pink, depending on your natural lip color.
