

Calculate Your Feng Shui Kua Number

● Worksheet for a Female born in and after 2000

Finding your kua number is an easy calculation using your birth year and gender. Here's how to find your personal kua number.

Step 1

Add the last two numbers of your birth year together.

_____ + _____ = _____ *Example: 2001 0+1 = 1*

If that number is two digits, add again to get a single digit.

_____ + _____ = _____ *Example: 2019 1+9 = 10, 1+0 = 1*

This single digit number is called your **Kua Factor**. _____

Step 2

As a female born in or after 2000, add 6 your Kua Factor.

_____ + 6 = _____ This is your **Kua Number**.

Example: 2001 Kua Factor 1, 1+6 = Kua Number 7.

If that number is two digits, add again to get a single digit.

_____ + _____ = _____ This is your **Kua Number**.

Example: 2008 Kua Factor 8, 8+6 = 14, 1+4 = Kua Number 5

If your kua number is 5 it represents dual yin yang or male/female energy:

Males use Kua 2 Females use Kua 8

While most personal number calculations are based on gender at birth, you can also choose to calculate the Step 2 math based on your gender identity.
